a high class proxity certificate may be obtained for the working of 41 wagons of stone ware pipes from Tubbulpore to B ctt, as many important damage works in Bangalore and Mysore cities were being held up for want of pipes the Resident was addressed to obtain the certificate required from the authorities concerned and the reply received from the Office shows that the request could not be complied with for reasons stated and it is suggested either to continue the outfit of the Mysore potteries or to suspend the works for the time being

It was already pointed out by the secretary spc that the entire outfit of the Mysore potteries co had been proposed to be purchased by the Southern Mysore

41) There are some points which are not clear to me If the Stores' Purchase Committee has entered into a contract for the supply of these pipes, why the wagons should be issued in the name of the contractors is not clear. The fact that we requested the wagons on behalf of the contractors may perhaps have queered the pitch. The Regional Controller of Railway Priorities had, when we asked for priority, suggested that pipes may be purchased from Tiruvellore Whether quotations had been got previously from Tiruvellore and if so whether they are cheaper than those of the Mysore Potteries has to be examined.

42) Again, if as already stated, the Mysore Potteries had their hands full with the requirements of the Military how they could give us these pipes now is also not clear. It would be interesting also to obtain the rates that they have quoted to the Military

43) Re. the rates charged by the Mysore Potteries, it

WD 0726—GPB—20 000—10 9 44

is rather strange that although the Jubbalpore pipes - ~~as I know~~ (are ?) ~~are~~ better than the pipes of the Mysore Potteries, how Messrs. Jubbalpore Company are able to quote lower rates than those of our local firm, requires to be investigated, especially since, as I believe, the local company has an official Director-Chairman

41) 41) In the letter addressed to the Secretary to the Hon'ble the Resident in Mysore (vide Pol 2201 dated 19-4-44), it was clearly stated that Waggons were needed for transport of materials ordered by Government of Mysore for their urgent use. The Regional Controller of Railway, Madras, wanted at first the Govt to instruct the Consignors at Jubbulpore to furnish him with particulars of their despatches in form 'A' to enable him to take necessary action

42) On receipt of the form 'A' duly filled in, the Regional Controller pleaded inability to secure as many as 40 Waggons & suggested purchase of stoneware materials at Trevellore. When

that officer was told, in reply, that all the waggons were not required at a time and that much smaller number would suffice and that when the purchase elsewhere was not economical, he replied that economy would not justify rail transport over long distances. It is this reason that has deprived us of waggons.

50 It is not known to me whether quotations were obtained from the Stoneware Potteries Ltd Trivellore or not.

42) 51 The Mysore Potteries have agreed to give us the preference, provided we guarantee to purchase all our requirements for the City Drainage Scheme from the Co. They have agreed to accept a reasonable percentage of profit to be decided by the Director of Sandal oil factory. We found that the Company was charging the Military rates not less than those offered to us

43) 52

There are two reasons tending to higher rates of the Mysore Cotton Co. One is the Jubbulpore Co. is much longer in the field and possess greater skill in the manufacture. During my visit to the factory, this aspect was pointed out to them. The other reason is that coal is far cheaper at Jubbulpore. It is sold here at Rs 70 as against Rs 100 or so at Jubbulpore.

53) The Director of Sandal oil factory, Who is the Official Director, and myself had a prolonged discussion with the Managing Agents, went through their manufacturing Costs in great detail, and resolved to recommend the rates, now before the Stores Purchase Committee, for adoption with the end of the Official Year

61 Large underground drainage schemes have been undertaken in Bangalore and Mysore Cities and the stoneware pipes and specials required therefor are being obtained from the Perfect Pottery Co ,Ltd , Jubbulpore on contract placed with the said company through the Stores Purchase Committee The Firm was unable to send to Bangalore the pipes required for the several works on account of the non-availability of the waggons for want of high class priority certificate from the Regional Controller, Madras

62 Hence, in March 1944, the Director of Public Health and the Secretary, Stores Purchase Committee, requested that a high class Railway Priority Certificate be obtained for the booking of 41 waggons of stoneware pipes from Jubbulpor to Bangalore City, as otherwise many important drainage works in Bangalore and Mysore Cities would be held up for want of pipes

63 The Residency were accordingly addressed to obtain the certificate required from the Regional Controller of Railway Priority, Madras, But it was intimated that it was not possible to issue the said certificate, as the movement of pipes from Jubbulpore to Bargalore was an extremely long one It was suggested by the Residency

64 that either the output of the Mysore Potteries should be captured or the drainage works suspended for the time being The Regional Controller also suggested that thay may be purchased from the Tirruvellore Firm

65 As the works, being of a vital nature, could not be suspended, the Director of Public Health was requested to suggest other ways of securing the pipes for carrying out the important and urgent drainage works in Bangalore City The Director of Public Health replied that the pipes required for the work in Bangalore City might be purchased from the Mysore Potteries Ltd , in consultation with the Secre

Secretary, Stores Purchase Committee This involved an extra cost of Rs 18,043-1-2 (being the difference in cost, according to the rates approved for purchase by the Secretary, Stores Purchase Committee from the Jubbulpore firm and those quoted subsequently from the Mysore Potteries Ltd)

6. The Financial Secretary to whom the file was referred enquired as follows.-

1) whether quotations had been called for previously from the Tiruvellore Firm (Madras Presidency), as intimated by the Regional Controller and if so, whether they are cheaper than those of the Mysore Potteries?

2) what are the rates that are quoted by the Mysore Firm to the military authorities as compared with those quoted to the Government departments? and

3) how the Jubbulpore firm are able to quote lower rates than those of the local firm, especially when the local company has an official Director as Chairman?

7. In reply to the above points, the Engineer Officer, Bangalore City Drainage has reported (1) that the Tiruvellore Potteries were not written to to submit quotations and (2) that the Jubbulpore Firm can quote lower rates because the company is much longer in the field and coal is far cheaper at Jubbulpore than here, as it is sold at Rs,70 per ton at Bangalore as against Rs 10 at Jubbulpore and (3) that the rates, in respect of the local firm pipes were fixed after going through their manufacturing costs in great detail by the official Director and the Special Officer, Bangalore City Drainage Works

8. Thereupon, the file was referred to again to the Financial Secretary with the above information In view of the urgency of the matter, the Director of Public Health was [illegible] to be authorised to purchase pipes etc , worth [illegible]500/- from the local firm to meet the immediate needs [illegible]galore and Mysore City Drainage works and an

application again made to the Residency for the grant of a priority certificate. The Secretary, Stores Purchase Committee would also be addressed to find out the rates of pipes manufactured at Tiruvellore Potteries The Financial Secretary has accordingly agreed to the purchase of pipes to meet urgent needs and has also suggested the Tiruvellore Potteries being addressed to supply us with good pipes at cheaper rates, if possible and if the rates of the local firm can be brought down

(6?) Points for orders

1) The Director of Public Health may be authorised to purchase pipes up to Rs 40,500 at the rates quoted by the local firm, which are higher than those approved for purchase from the Tumbulpore firm,

2) The Residency will be written to for a Priority Certificate again, and

3) the Secretary Stores Purchase Committee, will be requested to write to the Tiruvellore firm and ascertain rates for the supply of the pipes and specials

SIR,

High Class Priority Certificate for transporting stone-ware pipes from Jabbalpore to Bangalore for use in the Bangalore City Drainage Division

I have the honour to state that in connection with the underground drainage scheme of Bangalore City, stoneware pipes and specials have tobe obtained from Perfect Pottery Co , Ltd , Jubbalpore as the contract for the supply of pipes for the current year has been let out to the above firm by the Stores Purchase Committee

The Special Officer, Bangalore City Drainage Division reports in his letter No 273 dated 14th March 1944 that stoneware pipes are urgently required for several works of the Bangalore City Drainage Division, but that the firm is unable to send the required quantities of pipes on account of the non-availability of wagons for want of high class priority certificates from the Regional Controller of Railways Priorities, Madras

The qnantities required are as follows -

1 Order from Mr N Varadarajan B E , Contractor for 6 waggons
2 Order from G S Gangadharan B E , contractor for 8 waggons
3 Order from Messrs. Acharya & Acharya Ltd., for 21 waggons
4 Order from Mr.A R Doraswamy Iyengar, Contractor 6 waggons

Total - 41 Waggons

Copies of the Special Officer's letter and the letter dated 13th March 1944 of the Local Agent of the Perfect Pottery Co Ltd , Jabbalpore are enclosed for the information of Government A copy of Special Officer's letter No 527 dated 10th March 1944 addressed to the Secretary, Stores Purchase Committee apprising him of the situation is also enclosed

Government help is required in obtaining the priority certificate Otherwise the works will be held up

I therefore request you to be so good as to move Government

Government for arranging the necessary High Class Priority certificates for the booking of 41 waggons of the Stoneware pipes from Jabbalpore to Bangalore City for use in the Bangalore City Drainage Division.

Re Supply of wagons from Jabbulpore to Bangalore City for transport of stoneware pipes for drainage works

---

In connection with the draft submitted yesterday, I have the honour to state that the Perfect Pottery Co ,Ltd ,Jubbalpore is the firm approved by the Stores Purchase Committee for the supply of stoneware pipes, which are required for the work of this Division The importance and urgency of this work for the upkeep of the civil amenities and health of the highly inflated Civil and Military population living at present in Bangalore, cannot be exaggerated Stoneware pipes as noted below are immediately required for the several works of this Division but the above firm is unable to send the required quantities of pipes on account of the non-availability of wagons for want of high class priority certificates from the Regional Controller of Railway Priorities, Madras Under the circumstances, the necessary priority certificates may be kindly arranged tobe got very early to enable the work of this Division to be carried on Kind reference is also invited to this office No 266 dated 10 3 1944 on the subject

The matter may kindlybe treated as very urgent

Subject - Supply of stoneware pipes from Jubbulpore

I have the honour to state that the underground drainage works of this Division are done on terms of tendered contract The approved contractors, on settlement of rates of pipes by you for this year, wrote to the Jubbulpore firm approved by you but supply is not coming as the firm complain that Railway wagons are not given by the Railway authorities due to other pressure on their lines Priority certificates are difficult to obtain in the first instance and even if obtained, wagons are not supplied by the Railway In the meanwhile due to this long distance arrangement, pipes are not coming and the progress of work in the Division is coming to a standstill The situation is very serious and as bad as that due to the cement famine of last year I request you therefore to kindly find some way out Also rates for the following items not yet settled may kindly be intimated

Sir,

Stoneware Pipes and Specials required
for Bangalore City Drainage Division
and City Improvement Trust Board, Mysore
====

I am directed to state that stoneware pipes and specials required for Bangalore City Drainage Division and Mysore City Improvement Trust Board were ordered from Messrs The Perfect Pottery Co , Ltd , Jubbulpore. On account of the transport difficulties the firm requested that priority certificates may be obtained for them for the despatch of goods The Regional Controller of Railway Priorities, Madras, has after prolonged correspondence regretted his inability to assist us in securing wagons for the transport of the materials Copies of correspondence exchanged between us are enclosed for kind perusal

The City Drainage works are held up both at Bangalore City and Mysore for want of pipes and specials But the materials ordered are ready for despatch at Jubbalpore but could not be booked for want of priority certificates

We understand that for a similar work in the C & M Station some wagons were alloted to ~~the~~ contractor for transporting these pipes from Jubbalpore on the recommendation of the Executive Engineer, C &M. Station Municipality

It is also learnt that the Chief Engineer, Southern Army, Bangalore, proposes to purchase the entire output of the Mysore Stoneware Pipes and Potteries Ltd , over a period of some months

In the above circumstances, it will be very difficult to obtain our requirements if the pipes and specials stated to be ready at Jubbalpore could not be brought over here I am, therefore, to request you to kindly move the Regional Controller of Railway Priorities, Madras, if necessary, through the Residency for the grant of Priority Certificates for the transport of pipes and specials from Jubbalpore so as to enable us to take up and complete the urgent drainage works in Bangalore City and Mysore.

I have the honour to be,
Sir,

2nd November 1943, I am directed to state that the estimate of Wagons required is prepared on our approximate annual requirements As the contract is spread over a year, we may not require all the wagons at a time and our monthly or quarterly requirements will be proportionately reduced. I have called for the programme of requirements from the concerned Indenting Officers and I will let you know our monthly or quarterly requirements, shortly. I would, therefore, request you to kindly keep the matter open till then.

As regards your suggestion to obtain our requirements from Trivellore, I am to state that we have already entered into an agreement with the Jubbalpore firm as their prices were very competitive and it will not be possible to cancel the order at this stage. I would, therefore, request you to kindly assist us in this instance.
